

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## MUTUAL FIRE INSURANCE COMPANIES.

During the year 1889 three Mutual Fire Insurance Companies and one Mutual Marine Insurance Company were doing business in Michigan. The Mutual Fire Insurance Companies are entitled to write policies on manufacturing risks and their accessories only.

## MICHIGAN MUTUAL INSURANCE COMPANIES.

There were during last year sixty-four Mutual Fire Insurance Companies and two Mutual Cyclone, Tornado and Wind Storm Insurance Companies organized under the laws of, and authorized to transact business within, this State.

Since January 1, 1889, six Mutual Fire Insurance Companies have been organized under our laws, and have commenced business, viz.:

Farmers' Home, of Genesee county; office at Flint; June, 1889.

Farmers', of Manistee, Benzie and Mason counties; office at Bear Lake; August, 1889.

Tuscola County Farmers'; office at Caro; September, 1889.

Finlanders', of Houghton county; February, 1890; office at Red Jacket.

Farmers', of Mecosta county; March, 1890; office at Big Rapids.

Citizens'; March, 1890; office at Muskegon.

## IN HANDS OF RECEIVERS.

On the application of the Commissioner of Insurance two Mutual Fire Insurance Companies have been placed in the hands of Receivers, viz.:

Detroit Mutual, of Wayne, Washtenaw and Lenawee counties, July 11, 1889.

German American, of Wayne, Oakland and Livingston counties; February 14, 1890.

W. S. Walker was appointed Receiver for both companies.

## PETITIONS FOR RECEIVERS.

Petitions for the appointment of Receivers for the Farmers' Mutual Fire, of Kalkaska, Missaukee and Wexford counties, and the Farmers' Mutual Fire, of Lake, Osceola and Wexford counties, have been filed in the Circuit Courts for the Counties of Kalkaska and Wexford, respectively, and it is expected that the cases will be heard during the month of April.

## WOUND UP BUSINESS.

The Farmers' Mutual Fire Insurance Company, of Gratiot and Isabella counties has wound up its affairs and retired from business.

## COMPANIES RE-ORGANIZED.

After thirty years of successful business, the charters of the German Mutual Fire Insurance Company, of Washtenaw county, and of the Washtenaw Mutual Fire Insurance Company, of Washtenaw county, expired by constitutional limitation. Both of these companies have been re-organized under the same names, and are still in full and successful operation.

## EXAMINATIONS.

During the past year all but two or three of the Mutual Fire Insurance Companies have been examined by the examiners of this bureau, and in most cases they were found in excellent condition. In a few instances there appears to be a lack of careful business management, both as to the books of the companies and general affairs.

MICHIGAN STANDARD POLICY.

This form of fire insurance policy which was adopted by the Insurance Policy Commission on Dec. 26, 1888, went into general use by all of the fire insurance companies authorized to do business in this State (except the county mutuals and the Michigan Millers' Mutual Fire Ins. Co.), on the first day of July last which was the time fixed upon by the Commissioner of Insurance. I am pleased to state that so far as I have been able to learn, the policy has given the best of satisfaction to all persons concerned; the people like it, the agents like it, and I think the companies do also. Other States are adopting similar forms and it will not be a very long time before all fire insurance contracts will be practically the same over the entire country, after which time the construction put upon a policy by the courts of one State will apply to those of all other States having similar forms; this, it is believed, will have a tendency to prevent litigation to some extent.

## UNAUTHORIZED INSURANCE.

There is a considerable amount of this sort of business transacted in Michigan, some of which is placed by local agents but more of it through correspondence with outside companies and brokers. During the past year I have secured the arrest and conviction of a number of persons in this State who were engaged in this unlawful business. The Supreme Court of Tennessee has recently rendered a decision holding that a firm of insurance agents who procured a policy for a resident of that State in a company not authorized to transact business in Tennessee were liable to the assured for the amount of his loss under that policy, in default of payment of the same by the insuring company. Not having a copy of the decision before me, I take the liberty to quote from the last report of Hon. R. A. Maxwell, Superintendent of Insurance of the State of New York, as follows:

“\* \* \* In connection with this subject it may be mentioned that a very interesting decision was rendered, in January of the present year, by the Supreme Court of the State of Tennessee, which has an important and decidedly serious bearing upon the legal status of agents and brokers acting for unauthorized insurance companies. It seems that one T. L. Morton, of Tennessee, applied to Hart Brothers, insurance agents, for a policy of fire insurance on his stock of goods. They sent him a policy for \$500 in the Louisiana Insurance Company, of New Orleans. The Company had not complied with the insurance laws of Tennessee and had not been admitted to do business in that State. The property was destroyed by fire and the Insurance Company turned out to be insolvent and did not pay the loss. Thereupon Morton sued the insurance agents and recovered judgment against them for damage he had sustained. On appeal the Supreme Court affirmed the judgment, holding that defendants, the agents, were undertaking to do an unlawful and prohibited business; that in such undertaking they must be held to guarantee the solvency of the concern they represent to the extent of the requirements of the Tennessee statutes fixing the minimum amount of capital actually paid up in cash, as the condition to the right of a company to do business in the State, and that losses will be paid there; that the statute referred to was to protect the citizen policy holder and give him redress in the courts of the State; that if the company was not worth this minimum of \$200,000 in actual paid up cash capital, the undertaking of the agents supplies the want for the benefit of the insured, and if a loss occurs the agent must respond to the assured and look to his principal for indemnity; that his wrongful act has brought about the loss and he must sustain it. This decision is replete with good common sense, and as it was reached by the application of well-settled principles of the common law, which prevails in this and other States of the Union as well as in Tennessee, there is reason to hope and believe that the same principle will be maintained and declared by the courts of this and other States whenever a like case shall be brought before them for adjudication. Should the principle thus laid down by the Tennessee Supreme Court become generally known and recognized as law it would be the most effective blow yet struck at underground insurance.”

Part II of this report, which will follow soon, will contain detailed statements of the Life Insurance Companies, the Co-operative or Assessment Life and Accident Insurance Associations, and the Fidelity and Casualty Insurance Companies of this and other States, which were doing business in Michigan during the year 1889.

I desire to express my acknowledgment of the service rendered in preparing the statements and tables contained in this volume by Messrs. H. N. Lawrence, deputy commissioner, H. W. Walker, chief clerk, and Miss Van Wormer, assistant.

Respectfully,  
HENRY S. RAYMOND,  
*Commissioner of Insurance.*

STATE OF MICHIGAN,  
INSURANCE BUREAU,  
*Lansing, May 15, 1890.*

3 G. LUCE, Governor :

Commissioner of Insurance has the honor to submit herewith Part Twentieth Annual Report of the Insurance Bureau, containing a report of the condition on the 31st day of December, 1889, of the Life Insurance Companies, the Fidelity and Casualty Insurance Companies and other Life and Accident Insurance Associations of this and other States authorized to transact business in this State during the year 1889, taken from the annual statements of the companies on file in this Bureau. The number of such companies was seventy-five, classified as follows:

Life Insurance Companies	2
Insurance Companies of other States	31
Life and Accident Insurance Associations of Michigan	7
Life and Accident Insurance Associations of other States	24
Insurance Company of Michigan	1
Life and Casualty Insurance Companies of other States	10

the year 1889, two life insurance companies not organized under this State, were admitted to Michigan, viz.: The Commercial Insurance Co., of New York City, Sept. 18. The Canada Life Company, of Hamilton, Canada, Nov. 25.

er is the first life insurance company organized under the laws of a government which has ever been authorized to do business in

Michigan. Before its admission, I caused a thorough examination of its books, securities, etc., to be made under my direction, by my chief actuary and assistants. The result of the examination proved that the company was entitled to admission, after depositing with the Treasurer, securities amounting to \$100,000 as required by our laws (United States bonds in this case.)

#### HOME COMPANIES.

*July 25, 1888.*

In the matter of the claim of Albert B. Judd, the Commissioner of the State Land Office reported that on the 21st day of February, A. D. 1884, Judd purchased of the State the land (40 acres) described by him, and paid for it the sum of fifty dollars, and received a patent for the same.

That afterwards the Supreme Court in the case of Hugget & Smith vs. Case, 61 Mich., Reports, page 480, decided that the State had no valid title to the land purchased by Judd.

On motion the claim was allowed at fifty dollars.

---

*August 29, 1888.*

The claim of Crawford county for \$135.81, for amount paid the Northern Asylum for maintenance of Andrew J. Johnson an indigent insane person; the claim of R. R. Lansing for holding inquest on the body of Fred Blake who died at a police station in the city of Detroit, and the claim of Wayne county for expenses attending an examination of insane persons, who were a State charge, were disallowed for the reason that there is no law providing for the payment of such claims by the State.

The following resolution was passed:

*Resolved*, That the price of the annotated volumes of the Michigan Supreme Court reports from volume 23 to volume 37, both inclusive, be fixed at the following prices:
